

About CyborgIntell (CI):

CyborgIntell is a data-to-decision, AI software company. Our next-generation end-to-end AI platform automates the entire life cycle of data science and machine learning and helps organizations rapidly develop, deploy, and operationalize AI applications at scale. Our flagship product 'iTuring' is designed to develop highly accurate, trusted, explainable models and deploy advanced machine learning/deep learning models in production with just a few clicks, with real-time scoring and model monitoring. It is a zero-code platform designed for anyone to accelerate their AI journey within hours instead of months.

Our AutoAI platform augments data science team capabilities manifold, empowering them to be faster, consistent, accurate, and focused on solving business problems rather than coding.

Headquarters: HSR Layout, Bangalore-560102.

The Position:

Position Title: Data Scientist Location:

Bangalore (On-site) Experience: 0-

5years

Job Description:

- Understand business problems from an analytical and statistical standpoint and define problem statement(s).
- Identify data requirements and perform exploratory data analysis to discover trends and patterns.
- Perform pre-processing of structured and unstructured data.
- Build, evaluate, and improve predictive models and machine learning algorithms.
- Collaborate with engineering and product development teams for product enhancement.
- Identify statistical techniques to improve data engineering and model-building processes.
- Conduct research to improve machine learning model performance.

iTuring.ai is the brand name of our registered company name: CyborgIntell Private Limited

Corporate Office: Olsen Spaces, 4th floor, 5th Main Road, Sector-7 HSR Layout Bengaluru – 560 102
Regd. Off.: CyborgIntell Pvt. Ltd. C604, Surabhi, Ranka Colony Road, BG Road, Bangalore - 560076, India.
Email: info@ituring.ai **Phone No.:** 08043943070 **Website:** <https://ituring.ai> **CIN:** U72900KA2018PTC110874
